THE WHITE HOUSE

WASHINGTON

April 6, 1984

Dear Bill:

STAT As you know, [] recently completed a year on detail to my office from CIA. I'd like to offer my sincere appreciation for his many contributions while a member of my staff.

STAT Throughout his tenure, [] demonstrated an unusual ability to define and analyze major issues. As a senior policy analyst he worked on a broad range of National Security Policy issues including the President's Strategic Defense Initiative, enhancement of the conventional forces with modern technology, space strategy and certain critical continuation of government functions for the White House. STAT As the professional intelligence officer on my staff, [] has provided a wide variety of services including; acting as the point of contact for the various agencies of the National Intelligence Community, providing materials to our senior executives in preparation for foreign travel, and coordinating the presentation of current intelligence briefings and assessments on foreign research and technology. STAT [] handled his many and diverse duties in a highly effective fashion and was a most capable representative of this office in his many top level interrelations with other government agencies.

STAT [] assignment here has been beneficial for both our organizations and has given him a unique and broadening experience that will serve him well in future assignments. His contributions to OSTP demonstrate the benefits to our office of having someone with that kind of perspective and experience involved in policy formulation at this level. We consider ourselves fortunate to have such a superior representative of your Agency working with us and look STAT forward to continuing this association with [] STAT who has recently been assigned to replace []

Sincerely,

G. A. Keyworth
Science Advisor to the President

The Honorable William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505
